Reading Calculus Early Transcendentals 6th Edition Solutions

Exponentiation is a mathematical operation, written as b^n , involving two numbers, the base b and the exponent or power n , and pronounced as "b raised to the power of n ". When n is a positive integer, exponentiation corresponds to repeated multiplication of the base: that is, b^n is the product of multiplying n bases: $= ?$. The exponent is usually shown as a superscript to the right of the base.
