A 9-year-old male with a past medical history of Acute myeloid leukemia (AML) status post with bone marrow transplant presents with right ear pain and a headache. His vaccination history is not available. His mother reports that the pain started 3 days ago and is accompanied by pruritus and a sensation of fullness in the ear.

Sure, it's a new year, but we're in worse shape right now than we were all of last year. So keep doing that washing your hands thing. Keep that up.
